**MODERN MANUFACTURING
MAXIMUM ALLOWABLE LABOR TIMES**

This is Modern Manufacturing's list of maximum allowable labor times as it pertains to any and all approved warranty repairs on our equipment. The list is as follows:

- Single Spindle Cutters**
2 hour maximum total allowable labor time for any approved warranty repairs to any part of the cutter including gearbox repair or replacement.
- Multi Spindle Cutters or Flex Wing Cutters**
4 hour maximum total allowable labor time for any approved warranty repairs to any part of the cutter including gearbox repair or replacement.
- All Other Modern Equipment**
2 hour maximum total allowable labor time for any approved warranty repairs to any part of the equipment.

- No allowances will be made for travel time to and from the customer's location. It is the customer's responsibility to get the equipment in for repair.
- No credit is allowed for oil, grease, lubrication, etc. replacement.
- Any deviations from this policy or special situations must be discussed with Modern prior and written approval must be acquired from an authorized Modern representative.
- Modern agrees to pay your normal posted shop labor rate. You must fax a copy of your posted shop labor rate with the warranty form to 888-404-8910 prior to starting any warranty work. Please send to the attention of Morgan McCable.
